

Premières Journées Franco-italiennes de Nanosciences
Prime Giornate Italo-francesi di Nanoscienze

First Franco-Italian Workshop on Nanosciences
Porquerolles, September 6-9, 2015

The First Franco-Italian Workshop on Nanosciences is a joint initiative of the *C'Nano PACA* and the French Chemical Society section (*SCF-PACA*) in Provence-Alpes Côte d'Azur region (France) together with the Piemonte and Liguria sections of the Italian Chemical Society (*SCI*). It is intended to create a platform for high level education and scientific exchange in Nanosciences between the two countries.

The School will be held on the Mediterranean island of *Porquerolles* in the Provence-Alpes-Côte d'Azur region, France.

The Workshop will highlight 5 sessions on topics, which are particularly investigated in our regions. The target audiences are senior and young researchers from both countries for extensive discussions in a relaxed atmosphere.

Meeting place: IGESA, Porquerolles Island, France

Dates: Sunday 6/9/2015 afternoon to Wednesday 9/9/2015 afternoon

Participants: 25 French and 25 Italian

Inscription fees (including accommodation, coffee breaks and full board):

Young researchers (students and post-docs): 80 euros

Senior researchers: 150 euros

Scientific program:

5 sessions of 3 h (including coffee break), with 1 invited talk (50 min) and 5 oral presentations (20 min)

Main topics:

Nano-metrology

Nano-toxicology

Nano-functional materials

Workshop nano-energy: microbatteries and micro-fuel cells
